[sandy.crihfield@sarasotacountyschools.net](mailto:sandy.crihfield@sarasotacountyschools.net) I check my e-mail at least once a day but do not expect an immediate answer it will take 24 hours for a guaranteed reply. If you want me to preview an assignment or store a document you may use Blackboard to send it. At the same time e-mail the school e-mail address to tell me to look for it. I only look at Blackboard when something is due to grade or when you ask me to look at it. Make sure to put your full name and the focus of the submission in the subject line. All assignments need to be sent to Blackboard or handed in to me in person on the appropriate due date or before the due date.

## Course Objectives:

The syllabus aims to develop:

- An interest in the past and an appreciation of human endeavor
- A greater knowledge and understanding of historical periods or themes
- A greater awareness of historical concepts such as cause and effect, similarity and difference, and change and continuity
- An appreciation of the nature and diversity of historical sources available, and the methods by historians
- An exploration of a variety of approaches to different aspects of history and different interpretations of particular historical issues
- The ability to think independently and make informed judgments on issues

- An empathy with people living in different places and at different times
- A firm foundation for further study of History

### **Assessment Objectives:**

Candidates are assessed on their ability to:

- ∞ AO1: demonstrate knowledge and understanding
  - 1(a) recall, select, and use historical knowledge appropriately and communicate knowledge and understanding of History in a clear and effective manner
  - 1(b): demonstrate an understanding of the past through explanation, analysis, and arriving at a substantiated judgment of key concepts such as causation, consequence, continuity, change and significance within an historical context, the relationships between key features and characteristics of the periods studied
- ∞ AO2: analyse, evaluate, and apply
  - 2(a) as part of an historical enquiry, analyse, and evaluate a range of appropriate source material with discrimination
  - 2(b) analyse and evaluate, in relation to historical context, how aspects of the past have been interpreted and represented in different ways

### **Component 3: 1 hour / 40 marks**

Candidates will be given an extract from an historian's writing. The author of the extract will not be identified, nor will candidates be asked to identify the author. One extract will be set on each of the topics. The extract will be no more than 600 words in length. There will be a single question, asking candidates what they can learn from the extract about the interpretation and approach of the historian who wrote it. They will be

expected to show knowledge and understanding of the events and developments included in the topic (Assessment Objective 1 (a), but the purpose of the study will be for them to develop the ability to analyse and evaluate how aspects of the past have been interpreted and represented in different ways (Assessment Objective 2 (b)). Answers will be marked out of a total of 40 marks (20% of the total A Level Assessment).

While candidates will be expected to have an awareness of different interpretation, their study of the topic should not be simply historiographical. Rather, by considering different interpretations, candidates should develop an understanding of the nature of the discipline of History, and the ways in which History is produced.

In particular, through studying their chosen topic, candidates will need to consider **why historians produce different interpretations** of the same events, including:

- The fragmentary nature of historical evidence
- The selection and interpretation of evidence
- The ways that the passage of time can change the focus of historians, views, with the emergence of new evidence or new interpretations of other historians
- The ways that historians are influenced by the time and place in which they work.

They will also need to develop an awareness of **the different approaches historians adopt** to their work, including:

- How different historians ask different questions about their field of study
- How historians' approaches are influenced by their own ideology and beliefs (e.g. by focusing on issues of class, gender, the role of structures)

- ⊕ The inter-relationship between historians' interpretations and approaches
